Fountain Pen Paper Comparison Sheet

Record your own observations with the same pen and ink. This blank sheet contains no product rankings or WabiFinds test results.

Date: _____ Pen / nib: _____

Ink: _____ My main use: _____

1 Keep the comparison fair

Write on the actual paper samples, not this printout. Use the same text, pressure and ink. For each timed smear check, write a fresh line and touch it once at the chosen time. Ask permission before testing shop samples.

Observation	Paper A	Paper B
Exact notebook / paper version, ruling and stated paper weight		
Feathering Fuzzy or spreading line edges		
Show-through (ghosting) Writing visible through the sheet		
Bleed-through Ink reaching the reverse side		
Separate smear checks 5 / 15 / 30 / 60 seconds		
Writing feel and usual hand position		
Size, binding and portability		
Delivered price, currency and date		

2 Choose for your own writing

Preferred paper and reason: _____

A timed check is an observation, not an exact drying-time measurement. Results can change with nib, ink, paper batch, humidity and technique.

Free to print and share unchanged with WabiFinds attribution. Version 1.0 - 31 Oct 2026
